

Improving Centerline

Some remember the old way, sign up at the counter, your score sheet is marked how you paid, then when it was your turn your names were called. For some reason we have gotten away from that.

At the urging of our CPA a new method for signing up and paying for your rounds has been approved by the board. This will allow us to collect the last bit of information to better manage target purchases, inventory, project future needs, and most importantly, to make shooting more convenient for our members and non-members.

Here is the way it will work starting Saturday, July 10th:

For Members who use Shooting Cards:

- ⊕ Buy your shooting card at the main counter as always
- ⊕ Go to the field of your choice
- ⊕ Sign up between rounds with the Trapper on the field
- ⊕ Take the field or wait until you are called if others were first
- ⊕ When you take the field the Trapper will punch your card

For Members who do not use Shooting Cards, and for All Non-Members:

- ⊕ Buy one or more shooting tickets at the main counter
- ⊕ Go to the field of your choice
- ⊕ Sign up between rounds with the Trapper on the field
- ⊕ Take the field or wait until you are called
- ⊕ When you take the field the Trapper will punch your ticket and collect it.
